Community Yard Sale

PCS season is upon us and with that, we know many of you are trying to downsize before you move OR looking to fill your new homes! Join us at the Kirtland AFB Chapel parking lot on Saturday, June 9th from 8am-12pm for our community yard sale. If you plan to participate in selling, please message us on FB. We will also be providing an industrial-sized shredder at the event to get rid of your unwanted paperwork! FREE!

Women's Chado Tea Study

The Way of Tea, or Chado, is a way to calm the mind, soothe the spirit, and share a special time away from the concerns of every day life. Served with a respectful heart and received with gratitude, a bowl of tea satisfies physical and spiritual thirst. While deeply rooted in Japanese culture and Zen philosophy, its spirit is universal, and offers a tranquil approach to life that is best experienced directly, by quietly drinking a bowl of tea. The Urasenke tradition of Chado is a lineage dating back over 400 years. With its focus on harmony, respect, purity, and tranquility (wa, kei, sei, jaku in Japanese) it brings together people from many walks of life in the spirit of peace.
Please join us at the Town Center on Thursday, June 14th, from 4-6pm to experience the tradition of tea! This is FREE and open to KFH residents. Please RSVP on our Facebook page @KirtlandFamilyHousing.

Gas/Electric Lawn Mower Safety Tips

- Walk through the yard prior to mowing. Remove any debris and obstructions including toys, limbs, rocks, wire, or glass. Locate all sprinkler heads, exposed electrical wires or cords, tree stumps, or exposed roots and pipe.
-Keep hands and feet away from the blade area while the mower is running.
-Never reach underneath or into the discharge chute to clear away grass or other obstructions when the blades are turning.
-Never bypass the engine kill handle or remove shields when mowing.
-Mow back and forth along the side of a steep hill, never up and down the slope.
-Always push the mower; never pull to keep from pulling the mower over your feet.
-Don't direct the discharge chute in the direction of bystanders.
-Wear boots or shoes with good traction to avoid slipping and falling. Do not operate when barefoot or wearing sandals.
