We will bbq, have sno cones and cotton candy, play games, and have a bouncy house for the kiddos and raffle items for the grownups! Gas/Electric Lawn Mower Safety Tips

- Walk through the yard prior to mowing. Remove any debris and obstructions including toys, limbs, rocks, wire, or glass. Locate all sprinkler heads, exposed electrical wires or cords, tree stumps, or exposed roots and pipe.
- Keep hands and feet away from the blade area while the mower is running.
- Never reach underneath or into the discharge chute to clear away grass or other obstructions when the blades are turning.
- Never bypass the engine kill handle or remove shields when mowing.
- Mow back and forth along the side of a steep hill, never up and down the slope.
- Always push the mower; never pull to keep from pulling the mower over your feet.
- Don't direct the discharge chute in the direction of bystanders.
- Wear boots or shoes with good traction to avoid slipping and falling. Do not operate when barefoot or wearing sandals.
